# TKB 2000

---

## SYSTEM KEYBOARD

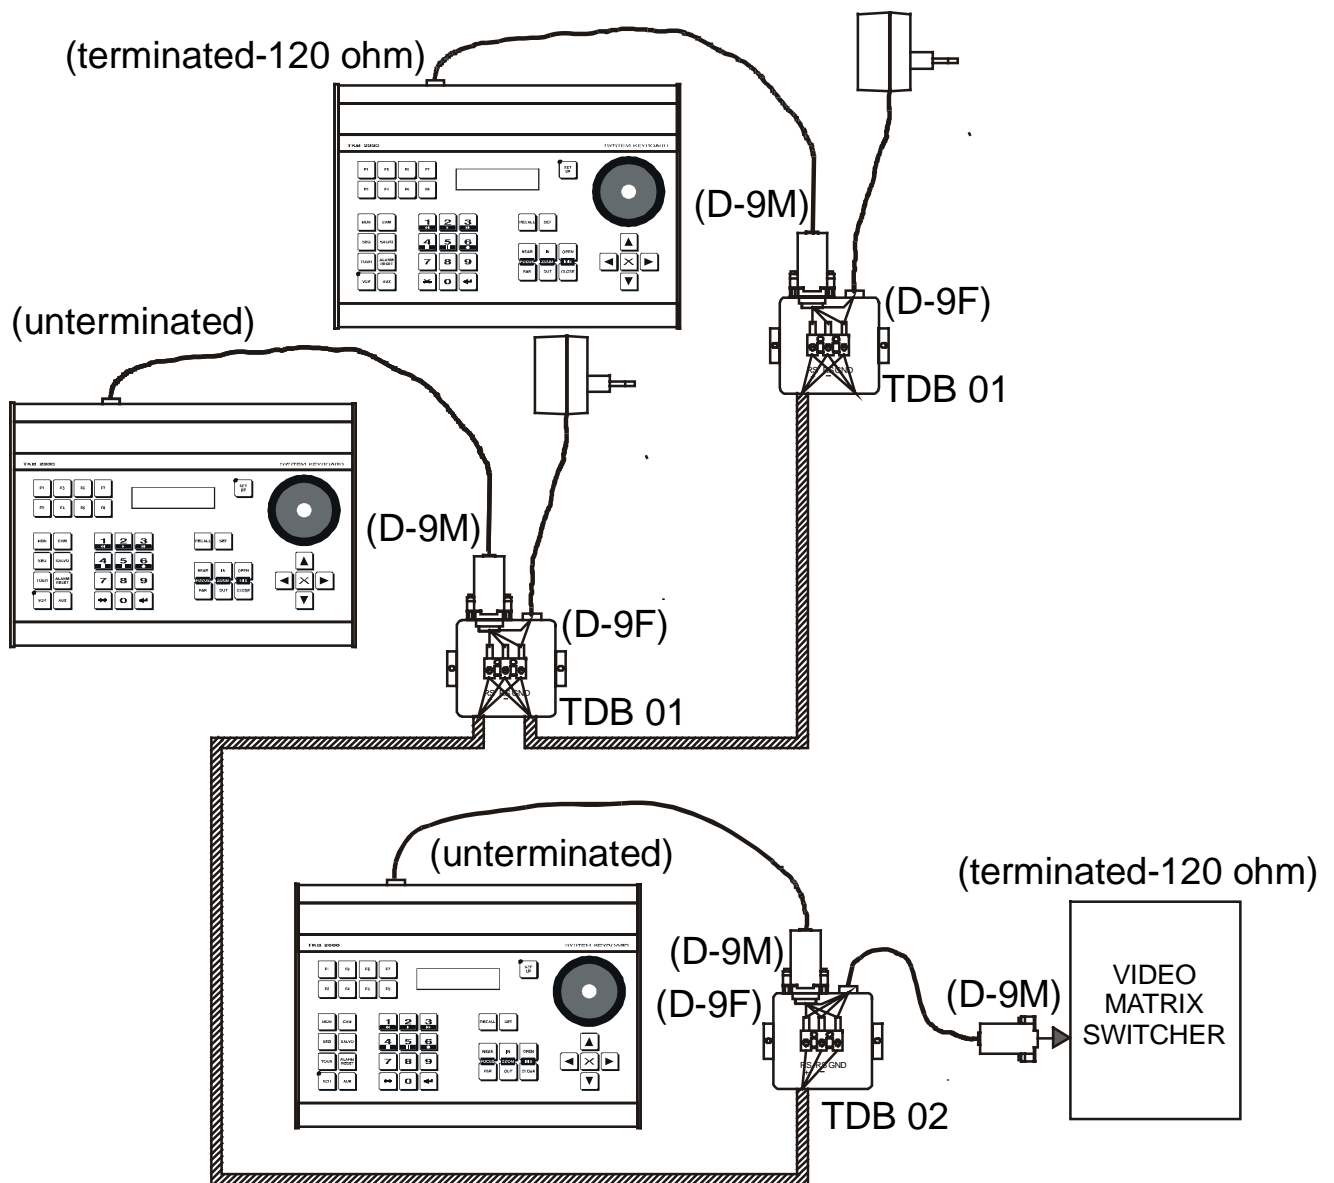

## FEATURES

- 42 Keys
- 2 LEDs
- Two (Three) Axis Joystick
- 2x16 Characters LCD
- RS-485 Serial Interface

The TKB 2000 is a System Keyboard with Joystick that allows matrix, telemetry and VTR control. Forty-two keys and their combinations enable to control all the desired functions.

Two built-in LEDs show the momentary state.
